

Teknisk specifikation

|                           | TEST       | JAIPUR                        |
|---------------------------|------------|-------------------------------|
| Ytstruktur                |            | 1/8" skuren lugg              |
| Garn                      |            | 100% polyester                |
| Sekundär baksida          |            | action                        |
| Garnhöjd                  | ISO 1766   | 16,5 mm                       |
| Garnvikt                  | ISO 8543   | 2050 g/m <sup>2</sup>         |
| Totalhöjd                 | ISO 1765   | 13 mm                         |
| Totalvikt                 | ISO 8543   | 2950 g/m <sup>2</sup> (±15%)  |
| Antal tuft                | ISO 1763   | 97 350 /m <sup>2</sup> (±10%) |
| Brand klassifikation      | EN 13501-1 | Cfl-s1                        |
| Termisk resistans (värme) | ISO 8302   | ca. 0.18 M <sup>2</sup> KW    |
| Ljusresistans             | 105-B02    | ≥ 5                           |
| Hållbarhet                | 105-X12    | ≥ 4                           |
| Vattenresistans           | 105-E01    | ≥ 4                           |
| Bredd                     | EN 1307    | 400 cm                        |
| Rullängd                  |            | 30 m                          |
